

Incoming 4th Graders

summer reading list

Welcome to 4th Grade!! As part of your preparation for next year, we challenge you to read as many books as you can this summer! Read the books of your choice! You are also required to read and meditate on the scripture readings below.

Also, please review your multiplication facts through the twelves table. All fourth graders must know their facts automatically in order to successfully move through the math curriculum. Please continue to practice your cursive writing over the summer, too. We are going to have a great year and keeping your skills sharp over the summer will help to ensure your academic success.

Remember, you will be able to take AR tests on your summer reading books so read carefully for comprehension. Happy Reading!

scripture readings
